

Title: ODSC-East (Paid Event)

Date: May 1-4, 2018

Location: Boston Convention and Exhibition Center
415 Summer St, Boston, MA 02210

About the Conference

This year's [2018 ODSC East](#) brings together the most influential data scientists, practitioners, innovators, and thought leaders in Data Science, Artificial Intelligence, and Big Data.

ODSC East showcases the best and the brightest when it comes to Data Science, including many open source data science pioneers.

This 4-day event will feature a total of 217 sessions: 146 talks, 66 hands-on workshops, and 45 intense training sessions.

Training Sessions & Workshops

Enhance your data science career with 20 training sessions taught by world-class data science instructors, in small class sizes. Here you'll strengthen your technical skills and boost your professional profile through intense, hands-on training led by industry experts. Further your data science knowledge and connect with like-minded individuals at the many conference talks and workshops.

Tools, Topics, and Languages

Impress your boss and colleagues with the skills you gain at ODSC East. Here's just a sample of the tools, topics, and languages we'll be covering in 4 days:

Topics: Deep learning, Machine learning, Data Visualization, Predictive Analytics, Natural Language Processing, Big Data, Artificial Intelligence

Languages: Python, R, Julia, Scala, Pig/Hive/NoSQL

Tools: Apache Spark, MLlib, Tensorflow, Caffe, Scikit-learn, Azure ML, Amazon ML, H2O.ai, Neo4J, D3.js, R-Shiny, Hadoop

Rockstar Speakers

We're gathering the best and brightest minds in data science for you. Learn the newest data science trends, insights from 100 industry experts. Please visit our [event website](#) for a complete list.

Networking Opportunities

Connect with 3,500 of your data science peers from around the world at these networking opportunities provided throughout the conference:

- Daily Coffee Breaks / Review the talks over coffee
- Lunch / Share a meal and ideas with like minded individuals
- Career Fair / Cross paths with cool startups and Fortune 500 companies looking to hire talented data scientists
- Office Hours Session / Drop in and bring your questions, big and small

About Accelerate AI - The ODSC Business Summit

[Accelerate AI](#), co-located with [ODSC East 2018](#), brings together the top industry executives, managers and CxOs to help you understand how AI and data science can transform your business including: Healthcare, Insurance, Retail, Government, Education, Bio/Pharma, Media & Marketing, Transportation, Finance, Manufacturing, Energy & Utilities, E-commerce, and more.

Superior Content, Peer Learning

This is the most important Industry AI Event of the year, hear from fellow CxOs, executives, chief data scientists, and thought leaders. Learn how AI and Data Science techniques are transforming business and prepare your company for the next wave of innovation by learning about: Deep Learning, Real-time Prediction, New product development, Data Visualization, Machine Learning, AI Tools and frameworks, Case studies, Automation, Sentiment Analysis, Open source AI/Data Science, Best practices, Law, Ethics and Governance.

Why Attend?

AI and data science is transforming business. **Accelerate AI** will give you the knowledge and connections to be at the forefront of your industry.

Superior Content

- Hear from top industry executives using data science to grow their business
- Attend talks, panels, and group discussions to get you up to speed

- Learn from the best and brightest AI and data science innovators
- Non-technical talks that will help you understand AI and data science

Superior Networking

- Meet executives from multiple industries engaging AI and data science
- Connect with the best and brightest AI and Data Science innovators
- Network, connect, and collaborate with those defining the future of business
- Multiple networking events including breakfast, lunch, and evening reception

Superior Expo

- Attend one of the largest AI and data science Expos on the east coast
- See and hear first-hand these innovative products and services
- Gain insights how AI and data science can transform your business
- View live on-floor presentations and product demonstrations
